

MIDAS (MDS) — Roadmap (2025–2027)

Phase 1 — Genesis (Q1 2026)

- Token deployment
 - DAO dashboard release
 - Airdrop to TROY stakers
 - Governance contracts audit
 - Snapshot setup
-

Phase 2 — Treasury Activation (Q2 2026)

- DAO treasury unlock rules
 - First governance proposals
 - Staker voting rewards
 - On-chain execution (Timelock live)
-

Phase 3 — TroyShield Policy Governance (Q3 2026)

- Claim assessor voting
- Premium parameter control
- Governance-approved risk policies
- On-chain claim approvals

Phase 4 — Multichain Governance (Q4 2026)

- Cross-chain MDS bridges (BSC, Arbitrum, Polygon)
- Unified voting interface
- Liquidity expansion

Phase 5 — Troy Chain Governance (2027)

- Validator election using MDS
- Governance of gas parameters
- MDS-only validator staking
- Chain treasury control

Phase 6 — Ecosystem Growth (2027+)

- MDS-funded grants
- Community-led upgrades
- New product approvals
- Strategic ecosystem integrations

Conclusion

MIDAS (MDS) is the heart of Troyvest governance:

- Fair
 - Transparent
 - Decentralized
 - Community-driven
-
